The Meeting is organized by

The Hellenic Society of Rheology (HSR), in cooperation with the National Technical University of Athens (NTUA), the University of Patras, and the Foundation for Research and Technology-Hellas (F.O.R.T.H.).

Hellenic Society of Rheology (HSR)
The Hellenic Society of Rheology (HSR) was established in 1996 by Greek rheologists residing both in Greece, Cyprus and abroad. It is affiliated with the European Society of Rheology (ESR) and dedicated to the promotion of scientific activities and advancement in the fields of rheology and fluid mechanics.

Scope of the Conference
The Meeting is open to all scientists and engineers conducting research or interested in the field of rheology and fluid mechanics. The program will consist of the first day on experimental rheology (5th June) and from 6-10 June on theoretical rheology in conjunction with the XVth International Workshop on Numerical Methods in Non-Newtonian Flows (IWNMNNF).

Topics
Special emphasis will be given to the following fields of research:
- rheology and rheometry
- structure and dynamics of polymers
- colloids and suspensions
- molecular modeling
- numerical simulations
- experimental, theoretical & computational fluid dynamics

New Deadlines
Prospective authors are invited to submit a short abstract preferably by e-mail (max. 250 words), along with their registration form, not later than March 31st, 2007 (remember that Easter vacation starts in Greece on that date!). Notification for acceptance will follow immediately.

Location
The Meeting will be held from Tuesday, June 5th, to Thursday, June 6th 2007, at the Rodos Palace Hotel in Rhodes, Greece (http://www.rodos-palace.gr/resort_index.html), during the first two days of the XVth IWNMNNF. Rhodes International Airport is easily accessible from all major European airports. The location is convenient for short excursions to other islands.
